

Women's Health Nurse Practitioner Program

Provide primary, gynecologic, and reproductive healthcare to individuals across the lifespan

Through a blend of asynchronous didactic content, synchronous class sessions, and in-person Objective Clinical Intensives (OCIs), the distance-based, online Women's Health Nurse Practitioner (WHNP) program from Berkley School of Nursing at Georgetown University prepares registered nurses (RNs) to provide primary, gynecologic, and reproductive care across the lifespan. Students develop the specialized skills and experience to treat and prevent illnesses as well as provide focused care in areas such as:

- Primary care
- Prenatal and postpartum care
- Care throughout the lifespan from adolescents to menopause
- General wellness and preventive care
- Reproductive health care

You will receive dedicated support and resources throughout the program, which include:

- BSON faculty, many of whom are Fellows in their specialty, who foster your professional growth and development
- Clinical placement specialists and advisors who partner with you to secure clinical sites
- Access to Georgetown library resources, student services, and the Hoya alumni network

Having earned a Master of Science in Nursing, graduates of Georgetown University's WHNP program are eligible to sit for board certification through the National Certification Corporation's Women's Health Care Nurse Practitioner exam (WHNP-BC) have consistently achieved strong annual certification rates.

91% NCC Certification Pass Rate for 2024*

*For reference, the NCC national average [first time pass rate for 2024 was 79%](#)
